SUBJECT INDEX

- Allergen-specific IgG antibodies in cats with allergic skin disease, 239
 Altered intestinal macrophage phenotype in ovine paratuberculosis, 139
 Ameliorating effect of *Yucca schidigera* extract on canine and feline faecal aroma, The, 61
 Aminopeptidase N deficiency in dog small intestine, An, 133
 Antibody response after treatment in cattle infected with *Psoroptes ovis*, 57
 Antibody, Some chickens which are viraemic with subgroup J avian leukosis virus have antibody-forming cells but no circulating, 81
 Antipyrine disposition in calves, Influence of short-term water deprivation on, 1
 Arterial blood gases and acid-base balance in geriatric dogs, 253
 Articular pain in domestic fowl, Evaluation of a protocol for determining the effectiveness of pretreatment with local analgesics for reducing experimentally induced, 263
 Association between alleles of the ovine major histocompatibility complex and resistance to footrot, 283
 ATP loss with exercise in muscle fibres of the gluteus medius of the thoroughbred horse, 231
 β -endorphin concentration and blood gas parameters in newborn piglets, Determinations of umbilical cord, 107
 Biotin in tissues of pigs and chickens, An immunohistochemical study of the distribution of biotin in tissues of pigs and chickens, 219
 Blood gas parameters in newborn piglets, Determinations of umbilical cord β -endorphin concentration and, 107
 Blood pressure measurement in dogs: evidence for tracking, Longitudinal studies of reproducibility and variability of indirect (oscillometric), 15
 Border Collies, The influence of lifestyle and diet on the lipoprotein profile of, 35
 Bovine viral diarrhoea virus (BVDV) in field samples, Comparison of RT-PCR assay and virus isolation in cell cultures for the detection of, 199
 Bronchoalveolar lavage fluids (BALF) in selected healthy pigs, Cellular variables in, 215
Brucella melitensis high-temperature-requirement A (htrA) deletion mutant is attenuated in goats and protects against abortion, A, 165
 Cardiopulmonary effects of sevoflurane in cats: comparison with isoflurane, halothane, and enflurane, 205
 Cartilage are associated with strain susceptibility, Degenerative joint disease in poultry - differences in composition and morphology of articular, 29
 Cartilage degradation in cultured embryonic chick tibiae, Tetracycline derivatives inhibit, 11
 Cellular variables in bronchoalveolar lavage fluids (BALF) in selected healthy pigs, 215
Cervus elaphus, Lactate dehydrogenase quantification and isoenzyme distribution in physiological response to stress in red deer, 119
 Clenbuterol and nifedipine, Inhibition of xylazine induced uterine contractility by, 73
Clostridium perfringens α toxin by enzyme-linked immunosorbent assay, Detection of, 101
 Coagulase-negative staphylococci isolated from sheep to various antimicrobial agents, Resistance of, 189
 Comparison of RT-PCR assay and virus isolation in cell cultures for the detection of bovine viral diarrhoea virus (BVDV) in field samples, 199
Cowdria ruminantium under serum-free culture conditions, In vitro isolation and cultivation of, 161
 Cyathostome infection, Fructosamine measurement in ponies: validation and response following experimental, 113
 Cytoskeletal intermediate filaments of canine retinal pigment epithelial cells in vivo and in vitro, The, 245
 Degenerative joint disease in poultry - differences in composition and morphology of articular cartilage are associated with strain susceptibility, 29
 Detection of *Clostridium perfringens* α toxin by enzyme-linked immunosorbent assay, 101
 Detection of *Mycoplasma mycoides* subspecies *mycoides* by growth-inhibition using monoclonal antibodies, 91
 Determinations of umbilical cord β -endorphin concentration and blood gas parameters in newborn piglets, 107
 Effect of dietary changes on plasma lipids and lipoproteins of six Labrador Retrievers, 175
 Effect of inhaled nitric oxide on the hypoxic pulmonary vasoconstrictor response in anaesthetised calves, 193
 Effect of sulfaphenazole and sulfadoxine on tolbutamide disposition in dwarf goats (*Capra hircus aegagrus*), The, 269
 Effect of transportation and weaning on humoral immune responses of calves, 227
 Effect of *Yucca schidigera* extract on canine and feline faecal volatiles occurring concurrently with faecal aroma amelioration, The, 67
 Effects of testosterone on fever and vasopressin mRNA in wether sheep given endotoxin, 129
 Enflurane, Cardiopulmonary effects of sevoflurane in cats: comparison with isoflurane, halothane and, 205
 Enrofloxacin and the in vitro development of resistance to certain antimicrobial agents in *Mycoplasma hyopneumoniae*, In vitro susceptibilities of recent field isolates of *Mycoplasma hyopneumoniae* and *Mycoplasma hyosynoviae* to valnemulin (Econor®), tiamulin and, 157
 Evaluation of a competitive immunoassay for the detection of bovine haptoglobin, 145
 Evaluation of a protocol for determining the effectiveness of pretreatment with local analgesics for reducing experimentally induced articular pain in domestic fowl, 263
 Experimental infection of chickens with an atypical *Mycoplasma gallisepticum* strain: comparison of diagnostic methods, 211
 Faecal aroma amelioration, The effect of *Yucca schidigera* extract on canine and feline faecal volatiles occurring concurrently with, 67
 Faecal aroma, The ameliorating effect of *Yucca schidigera* extract on canine and feline, 61
 Fibrin(ogen)-related antigens in rabbits experimentally infected with rabbit haemorrhagic disease virus, 123
 Footrot, Association between alleles of the ovine major histocompatibility complex and resistance to, 283
 Fructosamine measurement in ponies: validation and response following experimental cyathostome infection, 113
 Gastric emptying of oral rehydration solutions at rest and after exercise in horses, 183
 Geriatric dogs, Arterial blood gases and acid-base balance in dogs, 253
 Glutathione and related enzyme activities in the blood of Simmental bulls, 191
 Gluteus medius of the thoroughbred horse, ATP loss with exercise in muscle fibres of the, 231
 Glycyl-prolyl dipeptidyl aminopeptidase in dogs, The variation in excretory urinary, 97

- Goat lung, Transmission electron microscopy of the epithelium of distal airways and pulmonary parenchyma of the, 49
- Goats, (*Caprus hircus aegagrus*), The effect of sulfaphenazole and sulfadoxine on tolbutamide disposition in dwarf, 269
- Haemophilia A, Pharmacokinetics of von Willebrand factor and factor VIII in canine von Willebrand disease and, 23
- Haemorrhagic septicaemia, REP-PCR analysis of *Pasteurella multocida* isolates that cause, 151
- Halothane and enflurane, Cardiopulmonary effects of sevoflurane in cats: comparison with isoflurane, 205
- Haptoglobin, Evaluation of a competitive immunoassay for the detection of bovine, 145
- Humoral immune responses of calves, Effect of transportaiton and weaning on, 227
- Hypoxic pulmonary vasoconstrictor response in anaesthetised calves, Effect of inhaled nitric oxide on the, 193
- Immunohistochemical study of the distribution of biotin in tissues of pigs and chickens, An, 219
- In vitro isolation and cultivation of *Cowdria ruminantium* under serum-free culture conditions, 161
- In vitro isolation and characterisation of a bovine *Neospora species* in Japan, 77
- In vitro susceptibilities of recent field isolates of *Mycoplasma hyopneumoniae* and *Mycoplasma hyosynoviae* to valnemulin (Econor®), tiamulin and enrofloxacin and the in vitro development of resistance to certain antimicrobial agents in *Mycoplasma hyopneumoniae*, 157
- Influence of dietary protein on live bodyweight, degree of anaemia and erythropoietic responses of Scottish Blackface sheep infected experimentally with *Trypanosoma congolense*, 273
- Influence of lifestyle and diet on the lipoprotein profile of Border Collies, The, 35
- Influence of short-term water deprivation on antipyrine disposition in calves, 1
- Infrared and atomic spectrometry analysis of the mineral composition of a series of equine sabulous material samples and urinary calculi, 93
- Inhibition of xylazine induced uterine contractility by clenbuterol and nifedipine, 73
- Intestinal permeability and function test in clinically healthy Irish setter dogs, Reference range and repeatability of a combined, 257
- Isoflurane, halothane and enflurane, Cardiopulmonary effects of sevoflurane in cats: comparison with, 205
- Lactate dehydrogenase quantification and isoenzyme distribution in physiological response to stress in red deer (*Cervus elaphus*), 119
- Leukosis virus have antibody-forming cells but no circulating antibody, Some chickens which are viraemic with subgroup J avian, 81
- Lipoprotein profile of Border Collies, The influence of lifestyle and diet on the, 35
- Lipoproteins of six Labrador retrievers, Effect of dietary changes on plasma lipids and, 175
- Longitudinal studies of reproducibility and variability of indirect (oscillometric) blood pressure measurement in dogs: evidence for tracking, 15
- Long-term effects of an experimental infection with *Trypanosoma congolense* on reproductive Djallonke ewes and West African Dwarf does, 169
- Mammary tumours: incidence and cytokeratin expression, Spontaneous mouse, 85
- Mycoplasma galliseptum* strain: comparison of diagnostic methods, Experimental infection of chickens with an atypical, 211
- Mycoplasma hyopneumoniae* and *Mycoplasma hyosynoviae* to valnemulin (Econor®), tiamulin and enrofloxacin and the in vitro development of resistance to certain antimicrobial agents in *Mycoplasma hyopneumoniae*, In vitro susceptibilities of recent field isolates of, 157
- Mycoplasma mycoides* subspecies *mycoides* by growth-inhibition using monoclonal antibodies, Detection of, 91
- Neospora species* in Japan, In vitro isolation and characterisation of a bovine, 77
- Nifedipine, Inhibition of xylazine induced uterine contractility by clenbuterol and, 73
- Nitric oxide on the hypoxic pulmonary vasoconstrictor response in anaesthetised calves, Effect of inhaled, 193
- Oesophagostomum dentatum* infections in pigs, Serological assays for the identification of, 5
- Oral rehydration solutions at rest and after exercise in horses, Gastric emptying of, 183
- Ovine squamous cell carcinoma: immunocharacterisation of neoplastic cells and peritumoural cellular infiltrate, 43
- Papillomavirus in peripheral blood cells of donkeys with and without sarcoids, Screening for bovine, 289
- Paratuberculosis, Altered intestinal macrophage phenotype in ovine, 139
- Pasteurella multocida* isolates that cause haemorrhagic septicaemia, REP-PCR analysis of, 151
- Pharmacokinetics of von Willebrand factor and factor VIII in canine von Willebrand disease and haemophilia A, 23
- Psoroptes ovis*, Antibody response after treatment in cattle infected with, 57
- Rabbit haemorrhagic disease virus, Fibrin(ogen)-related antigens in rabbits experimentally infected with, 123
- Red deer (*Cervus elaphus*), Lactate dehydrogenase quantification and isoenzyme distribution in physiological response to stress in, 119
- Reference range and repeatability of a combined intestinal permeability and function test in clinically healthy Irish setter dogs, 257
- REP-PCR analysis of *Pasteurella multocida* isolates that cause haemorrhagic septicaemia, 151
- Resistance of coagulase-negative staphylococci isolated from sheep to various antimicrobial agents, 189
- Retinal pigment epithelial cells in vivo and in vitro, The cytoskeletal intermediate filaments of canine, 245
- Review of three pathology-based techniques for retrospective diagnosis of rinderpest, with comparison to virus isolation, A, 103
- Rinderpest, with compaison to virus isolation, A review of three pathology-based techniques for retrospective diagnosis of rinderpest, with comparison to virus isolation, 103
- Sabulous material samples and urinary calculi, Infrared and atomic spectrometry analysis of the mineral composition of a series of equine, 93
- Screening for bovine papillomavirus in peripheral blood cells of donkeys with and without sarcoids, 289
- Serological assays for the identification of *Oesophagostomum dentatum* infections in pigs, 5
- Sevoflurane in cats: comparison with isoflurane, halothane, and enflurane, Cardiopulmonary effects of, 205
- Some chickens which are viraemic with subgroup J avian leukosis virus have antibody-forming cells but no circulating antibody, 81
- Spontaneous mouse mammary tumours: incidence and cytokeratin expression, 85
- Squamous cell carcinoma: immunocharacterisation of neoplastic cells and peritumoural cellular infiltrate, Ovine, 43
- Sulfadoxine on tolbutamide disposition in dwarf goats (*Caprus hircus aegagrus*), The effect of sulfaphenazole and, 269
- Sulfaphenazole and sulfadoxine on tolbutamide disposition in dwarf goats (*Caprus hircus aegagrus*), The effect of, 269
- Testosterone on fever and vasopressin mRNA in wether sheep given endotoxin, Effects of, 129
- Tetracycline derivatives inhibit cartilage degradation in cultured embryonic chick tibiae, 11
- Tiamulin and enrofloxacin and the in vitro development of resistance to certain antimicrobial agents in *Mycoplasma hyopneumoniae*, In vitro susceptibilities of recent field isolates of *Mycoplasma hyopneumoniae* and *Mycoplasma hyosynoviae* to valnemulin (Econor®), 157
- Transmission electron microscopy of the epithelium of distal airways and pulmonary parenchyma of the goat lung, 49
- Transportation and weaning on humoral immune responses of calves, Effect of, 227
- Trypanosoma congolense*, Influence of dietary protein on live bodyweight, degree of anaemia and erythropoietic responses of Scottish Blackface sheep infected experimentally with, 273
- Trypanosoma congolense* on reproductive Djallonk ewes and West African dwarf does, Long-term effects of an experimental infection with, 169
- Urinary calculi, Infrared and atomic spectrometry analysis of the mineral composition of a series of equine sabulous material samples and, 93
- Uterine contractility by clenbuterol and nifedipine, Inhibition of xylazine induced, 73
- Valnemulin (Econor®), tiamulin and enrofloxacin and the in vitro development of resistance to certain antimicrobial agents in *Mycoplasma hyopneumoniae*, In vitro susceptibilities of recent field isolates of *Mycoplasma hyopneumoniae* and *Mycoplasma hyosynoviae* to, 157

- Variation in excretory urinary glycyl-prohyl dipeptidyl aminopeptidase in dogs, The. 97
- Vasopressin mRNA in wether sheep given endotoxin, Effects of testosterone on fever and, 129
- von Willebrand factor and factor VIII in canine von Willebrand disease and haemophilia A, Pharmacokinetics of, 23
- Water deprivation on antipyrine disposition in calves, Influence of short-term, 1
- Xylazine induced uterine contractility by clenbuterol and nifedipine, Inhibition of, 73
- Yucca schidigera* extract on canine and feline faecal aroma, The ameliorating effect of, 61
- Yucca schidigera* extract on canine and feline faecal volatiles occurring concurrently with faecal aroma amelioration, The effect of, 67
